The Window People

50
YEARS
1968-2018

Introduction

Established in 1968. Anglia Fixing are one of the leading suppliers and installers of new and replacement commercial aluminium windows, doors and curtain walling.

Based in Halstead, Essex. We are able to offer an unsuppressed service within the window industry to main contractors, builders, property developers and local authority clients mainly located within the East Anglia region, the home counties and to greater London, primarily East & North.

The MedBIC

The Anglia Ruskin Business Innovation Centre
for Medical and Advanced Engineering

Commercial

The majority of our projects are commercial, over the years we have completed many schools, retail parks, hospitals, care homes etc

We have worked for all different types of Main Contractors & Builders, with also working directly for the client and undertaking minor building works when necessary. Not just on new builds, but on replacements works also.

Products

Our main focus on products is aluminium, due to our commercial roots. We specialise on windows, doors and curtain wall. As these are the 3 main products generally used on nearly every commercial building. We can provide 2 systems, Comar and Senior Comar Aluminium, who we have been with for over 20 years and have developed a solid relationship with, we are recognised as one of their top fabricators.

Senior Aluminium is a relatively new system to Anglia, only taken on in the last few years, but has lived up to expectation on all fronts, on the many jobs we have undertaken with the senior products.

About Us

With over 150 years of experience in the office staff alone at Anglia Fixing, there is a wealth of knowledge here that not many companies have access to.

Which alone would separate us apart from many other companies in a similar industry. This does not take into account our installation & manufacturing teams who have been with Anglia for many years.

Certificate Number 9961
