

## Attwood Manor Care Home, Halstead

Comar Architectural Aluminium Systems, with their approved fabricator Anglia Fixing Ltd, supplied Comar 5P.i. windows for a new 2-storey extension to Attwood Manor Care Home in Halstead, Essex.

The project brief for this 2-storey extension was that the new windows blend in with the existing timber windows. A Georgian effect pane was achieved by cosmetic glazing bars within the cavity of the double glazed units. The thermally broken Comar 5P.i casements were manufactured and fitted in Hipca White polyester powder coat.

Top hung casement windows were hung on projecting friction hinges with an integral restrictor device to limit the initial opening to 100mm and were also fitted with push button key locking cockspur handles at the cill. Trickle vents, through a head extension bar, were also fitted providing a free airflow per vent of 8000mm<sup>2</sup> on these internally beaded and double glazed 28mm units.

All Comar approved fabricators are required to have the technical expertise to attend pre-site meetings and provide detailing. Anglia Fixing Ltd liaised closely with the specifiers to provide design advice and detailing which ensured the project ran smoothly and met site deadlines.

### PROJECT DETAILS

**Architects**  
M.P. Associates.

**Fabricator**  
Anglia Fixing Ltd.

**Main Contractor**  
Gipping Construction Ltd.

**Project Value**  
£33,000.

**Systems Used**  
Comar 5P.i.

**Location**  
Halstead, Essex.

# Attwood Manor Care Home, Halstead

**Comar, the leading British Aluminium Systems House, designs and extrudes over 700 aluminium profile sections. A team of specification consultants provide project-by-project design, calculations and NBS specification advice to architects. Comar distributes profiles to a nationwide network of fabricators for manufacture and installation.**

## Retail Aluminium Architecture

Inherent strength and slim sight-lines make Comar aluminium the specification product of choice for all retail outlets. Comar offers extensive systems which integrate to provide aesthetic appeal to potential retail customers.

Step through Comar 7, an extensive range of sliding, automatic, folding or swing doors. Overhead Comar 6 creates sloped, pitched or barrel vaults which cast light throughout the retail complex or outlet. Comar 1,3,4 & 8 integrate with Comar 7 to provide shop-fronts with various angle returns and height capability. Comar 6 curtain walling houses the envelope with a variety of cover caps which complement panels and glazing.

## Commercial Aluminium Architecture

Statement of function is the key element of commercial building design. From designing industrial units to corporate headquarters the flexibility of Comar Aluminium Systems can integrate with panel systems and provide curtain wall with opening vents and windows in a variety of configurations. Comar can

powder coat the aluminium system to your RAL, BS or Syntha Pulvin colour to complement the façade.

## Education & Public Building Aluminium Architecture

Comar have worked in conjunction with Local Authorities to design specific products for use in the education and public building sector. The nature of public building construction demands cost effective, robust solutions. Comar 2 is a cost saving alternative to curtain walling, creating glazed façades for medium rise buildings, stairwells and entrances. Comar 2 integrates with Comar 5 and 5LT windows with espagnolette locking handles to provide security and Comar 7 Doors with anti-finger traps to provide safety. Comar's integrated systems ensure a cost effective, aesthetic façade with security and safety as standard.

## RIBA CPD Provider

Comar provides RIBA assessed CPD Seminars to architects and specifiers throughout the UK. There are two seminars available; please complete the feedback for further details.
